## Contents

1	Elsevier Paper	3
2	Application 1: Sinter Chute	3
3	Application 2: Raceway	3
4	Thesis	3
5	Conferences	3

## List of Figures

## List of Tables

## **1 Elsevier Paper**

The paper for Powder Technology has been accepted! It will be published by the end of January 2016.

## **2 Application 1: Sinter Chute**

Application 1 has been completed. The final report with the results has been delivered to the industrial partner (Primetals).

## **3 Application 2: Raceway**

The new geometry presents a critical issue: particles are lost during the simulation. Together with Thomas Lichtenegger, I am trying to solve the problem.

## **4 Thesis**

A new draft will be available by Monday the 15<sup>th</sup> of February.

## **5 Conferences**

CFD 2015 in Melbourne has been a success.
